BCB Conditions of Play: Appendix G. 1 Use of Bowling Delivery Aids

Bowls Canada Boulingrin recognizes that the primary purpose of a bowling delivery aid is to enable a person with a physical disability to play the sport of bowls. This regulation covers the use of a delivery aid (e.g. support, bowling arm, etc.) for delivering a jack and a bowl. For all Canadian Championships, and for provincial playdowns leading towards a national championship, a player must seek approval of their specific bowling delivery aid. Devices such as bowling arms that are produced by a recognized manufacturer, and used with no customized modifications, will typically be approved. Manufacturers are encouraged to provide a sample device for testing by BCB to assist with the approval process. For most Canadian Championships, and for provincial playdowns leading towards a national championship, a bowler must be able to produce a medical certificate that attests to their physical disability.
